

**PIRFO Trainer's workshop Agenda  
5 - 9 December 2022  
Hexagon Hotel**

Time: 9 to 12 and 1 to 4 pm

**Workshop Agenda**

**Day 1**

- |                                                                  |          |
|------------------------------------------------------------------|----------|
| 1. Introduction                                                  | Sifa     |
| i. Welcome and opening                                           |          |
| ii. Housekeeping matters                                         |          |
| iii. Workshop agenda                                             |          |
| 2. PIRFO Training framework (version 3.2)                        | Tim Park |
| 3. Observer operations units (breakdown)                         | Allison  |
| 4. Qualifications, micro-qualifications, and units of competency | Allison  |

**Day 2**

- |                                                           |                   |
|-----------------------------------------------------------|-------------------|
| 1. Observer Assessments and unit of competency            | Sifa              |
| 2. Debriefer operations Cert. IV                          | Tim/Sifa          |
| i. Unit of competency                                     |                   |
| ii. Debriefer Assessor Qualification/Endorsement          |                   |
| iii. Agenda and Materials to be used in Assessor training |                   |
| 3. Observer data quality and management                   | Colley / Aurélien |
| i. Process of observer data at SPC                        |                   |
| ii. Data quality check and issues                         |                   |
| iii. TUFMAN 2 and other data system                       |                   |
| iv. Reports and summary                                   |                   |
| 4. Biological sampling training for Trainers              | Jed / Tim         |
| i. Overview of the Biological sampling and collections    |                   |
| ii. muscle sample for genetics and protocols              |                   |
| iii. Demonstration of collection of samples for genetic   |                   |
| iv. Conversion factors and Gen 4                          |                   |
| v. Spill Sampling training                                |                   |
| 5. Training on FAD designs and Gen 5 form                 | Lauriane          |
| i. FAD designs and materials                              |                   |
| ii. WCPFC management measures - FADs (CMM-2018-01)        |                   |
| iii. Drifting FAD related to data in Gen-5                |                   |
| iv. Satellite Buoy serial number                          |                   |
| v. Scenario exercise to fill Gen 5 form                   |                   |

### Day 3

1. OLLO Malo / Aurélien
  - I. Training
  - II. Longline scenario
  - III. discussion on how to train observers
2. DCC Planning 2022 Tim
3. Overview of Gen 3 form Tim
  - i. Open discussion on Gen 3 and questions.
4. Overview of PS forms Sifa /Manoi
  - i. Identify issues with PS 2 – Activity, how detect and Association
  - ii. PS 3 – by catches and target species and estimation/observer
  - iii. PS – 4 length measurements/frequency issues
  - iv. PS – 5 – well activity, source, and destination,+ - (Ves.) & Cum.Total

### Day 4

1. Overview Longline forms Sifa / Apenisa
  - i. LL 2/3
  - ii. LL 4
  - iii. Gen 1 Tim / Sifa
  - iv. Gen 2
  - v. Gen 6
  - vi. Sup forms
2. Trainer's presentation Sifa/Trainers
  - i. Training issues face by Trainers
  - ii. One Lesson plan and presentation to present during the workshop.  
Topics to be provided.

### Day 5

1. Continue with Trainer's presentation
2. PIRFO Trainer's certificate presentation Tim
3. Next Trainer's workshop
4. Close workshop

---

### Trainers / Presenters

Allison Delvendiep  
Aurélien Panizza  
Lauriane Escalle  
Malo Hosken  
Colley Falasi  
Jed MacDonald  
Manoi Kutan  
Apenisa Sauturaga  
Timothy Park  
Siosifa fukofuka
